

## **Bus Evacuation**

The District will develop and implement a bus evacuation training program as follows:

1. Annual bus evacuation drills will be scheduled each school year. Drills will be conducted at each school site and all students will either participate directly or will observe an evacuation demonstration by other students.
2. The transportation director and the building principals shall be responsible for carrying out the program.
3. The method of instruction will include first-hand observation of actual participation.
4. Classroom teachers representing the grade levels involved in the drill will provide student supervision.
5. Parents will be informed of the Board policy through press releases and letters.
