Pupil's Name

AUTHORIZATION FOR MEDICATION ADMINISTRATION

(Education Code Section 49423)

Any pupil who is required to take, **during the regular school day**, medication prescribed for him/her by a physician, may be assisted by a school nurse or other designated school district personnel if the district receives:

1. **A written statement from a physician** licensed in the State of California detailing the method, amount and time schedules by which such medication is to be taken. *See form, Physician's Statement.*

2. **Written authorization from the parent/guardian** of the pupil indicating the desire that school district personnel assist the pupil in the matters set forth in the Physician's Statement. *See authorization statement below.*

This authorization is valid only for the **current school year**. All medication requests must be renewed each school year if the continuation of the medication is necessary. If any of the conditions in the Physician's Statement change, a new form must be signed by the physician and the parent/guardian.

An **adult** must bring only the medication prescribed by the pupil's physician as being necessary to be taken by the pupil in the manner listed on the Physician's Statement to the school. Medication must be in containers which are clearly marked with the name of the pupil, the name of the prescribing physician, name of the medication and the amount of medication dose**. No envelopes or plastic bags!**

This portion to be completed by parent/guardian:

I request that a school nurse or other district designee administer the medication as directed by the physician on this form to my child:

For medication to be given at school on an ***as needed*** basis and to avoid your child receiving doses too close together call the health office at the school site to ***notify her if your child received that medication prior to school that day.*** If your child attends Extended School Services, you will also need to notify them ***in addition*** to the school site.

I understand that school staff has my permission to communicate with the prescribing physician on matters related to this medication.

I recognize the fact that this is a service or accommodation which the school is not legally required to perform. I agree to save and hold the district, its officers, employees or agents, harmless from all liability, suits or claims of whatever nature or kind, which might arise as a result of administering the medication in accord with this request.
