

Please find the answers to questions asked below:

1. Based on the level of details required to respond, Request to please extend the proposal submission deadline by two weeks after the addendum with questions and answers is posted for all vendors to have time to consider the clarifications before submitting their final responses? [Unfortunately we are unable to extend the due date. There is still about 1 1/2 weeks to submit your proposal.](#)
2. Are electronic signatures acceptable for hard copies or are wet ink signatures required? [Yes, electronic signatures are acceptable.](#)
3. If exceptions to the terms and condition to this RFP are allowed? Please clarify. [Are you asking for the small paragraph under: PRICE, TERMS, AND CONDITIONS within the RFP, or a different area? As far as substitutions, third party vender, or gray sourced products, No.](#)
4. Please clarify if all the installations are required onsite? Or virtual Installation/Configurations are allowed, considering the Covid-19 situation? [Installation of physical equipment is required onsite, but if there are processes that can be done virtually \(example: Moving over current VM environment to the new system\), then we would be okay with that offsite with remote access.](#)
