#### 2022-23 School Overview

Lakeside Middle School, located on the western edge of Lakeside, just south of Highway 67, is one of two community middle schools located in this semi-rural town of over 60,000 residents. Lakeside Middle School provides a challenging learning environment for sixth, seventh, and eighth grades. Lakeside Middle School was recognized in 2014-2015 as a Gold Ribbon School with an exemplary arts designation. Our students work with staff in a positive environment, which maximizes academic learning. Our oldest building, dedicated in 1937, reflects the rich history and tradition that is associated with Lakeside Middle School. Our campus facilities include a mixture of permanent structures and portables including a wood-shop, computer lab, dance studio, art and computer rooms, a library, and boys and girls physical education buildings. The mission of the Lakeside Union School District and Lakeside Middle School is to provide a nurturing and challenging learning environment that is committed to the development of each student's: love of learning; academic, vocational and social skills; respect for self and others; appreciation for the arts; sense of responsibility and recognition of the need for peaceful resolution of conflict. At Lakeside Middle School, we believe that student learning occurs best in an environment where home, school and students work together.

It is the vision of Lakeside Middle School that all students can learn from an instructional program that provides a quality educational environment that integrates the arts into all curricular areas. Lakeside Middle School's well-rounded visual and performing arts programs compliment the finest academic programs. The academic programs will support students at all levels of ability, and all students will be provided access to the arts. Throughout the curriculum, students will utilize technology. The environment of Lakeside Middle School will support social and emotional well-being of students through character education that promotes integrity, social responsibility, and academic excellence.

Lakeside Middle School offers a wide variety of arts courses including instrumental music, dance, choral music and drama. This arts focus is offered to all students at all three grade levels. Our academic courses offer the highest quality and rigor. All students are taught the advanced English and Math courses, providing challenging opportunities for our students. Project Lead the Way is a pre-engineering program available to students in addition to our advanced science courses and agriculture science classes. LMS is also a full chartered FFA (Future Farmers of America) school, the first fully charted middle school in California. In addition, students have the opportunity to enroll in beginning through advanced Spanish and Mandarin courses as their elective. All students are issued a school i-pad. Lakeside Middle School also offers a Spanish Immersion program for students that have transferred from an elementary immersion program. The program is currently offered at grades six, seven, and eight. Students in the program are offered two periods immersed in Spanish, history, and literature. The Lakeside School

#### 2022-23 School Overview

District Board of Trustees has authorized a "Pathways Seal of Biliteracy" or an "Exemplary Arts Designation" for qualifying students on eighth grade diplomas.

# A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

## 2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

In October 13, 2022 the Lakeside Union School District Board of Trustees verified by resolution that each student at Lakeside Middle has a textbook and/or instructional materials for each core subject area, and that the textbooks and materials are aligned to the content and cycles of the curriculum framework adopted by the State of California. Care is taken to ensure that all students have access to Board adopted textbooks and instructional materials at all times. A book room is kept for extra copies of each textbook and these are used when new students enroll at our school.

#### School Facility Conditions and Planned Improvements

Lakeside Middle School has a rich history in our community. It was opened in 1917 as a high school with the oldest building, built in 1937, still standing. Despite the age, the building is in fine condition and is well maintained by our maintenance department. Other buildings were added through the decades including physical education rooms, a complete wood shop, a multipurpose room / theater, a band room, and a library. The cooking classroom has been converted to a choral music and dance classroom. Beginning in April 2011, Lakeside Middle School received six million dollars in upgrades from a bond initiative that was passed by voters. The remodeling was completed in January, 2012.

To determine the condition of our facilities, our district sent experts from our facilities team to perform an inspection using a survey called the Facilities Inspection Tool, which is issued by the Office of Public School Construction. Based on that survey, we've answered the questions you see on this report. Please note that the information reflects the condition of our buildings as of the date of the report. Since that time, those conditions may have changed.

## **B. Pupil Outcomes**

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
- 2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
- 3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
- 4. College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

#### 2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who met the standard standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2022-23 Opportunities for Parental Involvement

Parents are valued members of the LMS school community and actively work with Lakeside Middle School staff to create a safe, positive climate for student achievement. They serve as members of PTSA, School Site Council, English Learner Advisory Committee, District English Learner Advisory Committee, District Advisory Committees, Schools of the Future Committee and the District Safety Committee.

Our dynamic PTSA leaders advocate for student achievement, school safety, and parent involvement. Goals include supporting the health, safety, and well-being of students through programs and materials, increasing parent involvement, and volunteerism by providing monthly family events that encourage parent-child interaction and supporting arts and science enrichment that sets Lakeside Middle School above other campuses.

Parent involvement and support of student performances in dance, art, theater, band, orchestra, FFA, and athletics programs are key to our success! Our performances are currently very limited but are still in planning stages for when we can resume normal operations. Home-school communication is facilitated through weekly email blasts, phone contacts, the daily use of student planners, newsletters, Homework Hotline, our school and district website, and Jupitergrades. Jupitergrades provides a secure password-protected grade book communication program, to give parents access to current grades and homework online, to further support student learning and communication.

#### **Suspensions and Expulsions**

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

#### 2022-23 School Safety Plan

The LMS School Safety Plan, revised annually, is a part of a regional East County safety grant and a collaboration with law enforcement, fire, and community-school leaders to ensure that all school sites from kindergarten through 12th grade communicate using consistent procedures. We conduct monthly fire, earthquake, lockdown, and campus security procedures and discuss safety procedures in classes and assemblies. Updated safety procedures are posted near each office phone and in each classroom.

Teaching staff and administration move about the campus, checking student passes, monitoring restrooms, directing campus visitors and alerting the office of potential concerns. Administrators are visible during high-density periods and remain on campus in the evening following dismissal to ensure that each student has exited the campus safely or arrived at their after school program. Cameras are installed throughout the campus add to the safe campus atmosphere. The double lunch schedule has reduced crowding at lunch, increased the ratio of supervisors to students, and enhanced safety.

The LMS PTSA will help support all LMS students by providing programs, assemblies, and the proper items and materials that relate to the well-being and safety of our students. They have purchased a defibrillator for the school, and emergency backpacks and cases of water for each classroom. The LMS PTSA sponsored the nationally recognized Rachel's Challenge program based on the life and writings of Rachel Scott, the first victim of the Columbine school shooting. This powerful program is continuing through peer training to inspire, equip, and empower students to make a difference in their world through leadership and social-emotional skill training. Both programs are further woven into school culture by trained Peer Ambassador Leaders (PALS), who are guided and trained by our school counselor and work with fellow students to help with problem-solving and positive role modeling. These school and community resources have lead to a peaceful learning environment and a feeling of safety among students.

#### 2021-22 Types of Services Funded

Our district relies on federal funding under Title I, Title II, and Title III of the Every Student Succeeds Act (ESSA). The purpose of these funds is to assist districts in closing the educational gap of special populations and providing resources, professional development, and materials to improve instruction. For a more detailed analysis of services funded, refer to the LUSD LCAP on our website at <a href="https://www.lsusd.net/domain/1503">https://www.lsusd.net/domain/1503</a>

In addition, each year each school's School Site Council (SSC) develops a School Plan for Student Achievement (SPSA). The SSC at Lakeside Middle is comprised of the principal, teachers, staff, parents, and students who share the goal of improving our school and our students' performance. The California Department of Education describes the SPSA as the "plan of action to improve student academic performance by coordinating all educational services and resources." The SPSA is developed by reviewing site-specific student demographic, achievement, outcome, and perception data and developing an improvement process. The SSC is the decision-making body responsible for gathering input from the staff and the parent community about school goals and and establishing a plan for accomplishing those goals. The SSC reviews, modifies, and monitors implementation of the plan and establishes a budget for proposed expenditures to support the specified goals. SPSAs are reported to the LUSD Board of Trustees annually.

At Lakeside Middle School, the majority of site lottery funding is used for classroom budgets. Funds are also used to support after-school tutoring and to support arts programs. A portion of the funds go to staff development to keep teachers abreast of the latest innovations in education. A variety of specific programs, such as College and Career Readiness and Project Lead the Way are also funded with these resources. Various technology programs such as Math, Jupitergrades, Vocabulary.com, Learning Upgrade, and Flocabulary are also funded.

Teachers take some time each year to improve their teaching skills and to extend their knowledge of the subjects they teach. Here you'll see the amount of time we set aside for the past three years for their continuing education and professional development.

#### SCIENCE -

Science - The primary areas of focus for staff and administrator development have been related to the adoption of the Next Generation Science Standards (NGSS) and moving teachers and administrators into implementation. Focus areas include: 1) Building leadership capacity, 2) Scaling up Professional Learning and Support to include all district teachers, 3) Planning instruction aligned to the Next Generation Science Standards, 4) Collaborative planning tools for instruction, and 5) Addressing supplemental instructional materials.

Professional development needs were determined via district-wide Needs Assessment Surveys, LUSD Core Leadership Team/California Next Generation Science Standards Early Implementation Initiative, and feedback data collected via prior professional learning events in the district.

Administrator professional learning will address NGSS innovations, strategies to identify and support high quality science instruction (observations and feedback) and sustainability. This support will occur both on site and through district management meetings via the Early Implementer Initiative.

Next Generation Science Standards Teacher Leaders, Expansion Teachers, and administrators are supported via NGSS Early Implementation Initiative Project Director, on-site Core Leadership Team members and/or Teacher Leaders.

#### MATH –

LUSD focused on mathematics as a professional development goal in response to low performance scores on the CAASPP and to support teachers in the Common Core Standards for Mathematics. LMS uses consultants to work with math teachers to improve instruction and student achievement.

Professional development in mathematics is delivered in three primary ways: 1) Workshops (after school, on professional growth days, and during teacher release time), 2) Individual and small group site-based coaching/mentoring, and 3) Conference attendance.

#### **Professional Development**

Teachers are supported in refining their mathematics instruction and use of curriculum materials through: 1) Workshops focused on the content and pedagogy relevant to the math content they teach, vertical progression of content, and the Common Core content and practice standards 2) Workshops/guided collaboration focused on unit and lesson design with their curriculum materials (within school and cross-school), 3) In-class coaching both in one-on-one and small groups, and 4) Lesson Study in grade-level groups. Additionally, principals attend all teacher professional learning activities and receive additional training from a leadership perspective.

#### Social/Emotional/Behavioral Support -

Social-emotional learning and support and behavioral support are focus areas in the 20-21 school year. Teachers have been trained through "Crew" to implement weekly social / emotional lessons with students. Crew classes meet once week and training is on-going for staff.

PBIS remains in place at all sites. School Counselors continue the work of supporting the social and emotional needs of students. Two Behavior Specialists and two Behavior Intervention Aides are also available to support students with the most intensive behavioral needs.

Professional Development and Coaching have focused on Conscious Classroom Management strategies. Conscious Classroom Teaching provides teachers with professional development and coaching on Tier I and II behavioral strategies. MTSS TOSAs are also available to coach on classroom management strategies and student behavior plans.

#### Leadership -

Lakeside Union School District continues to support principal growth through Professional Development and has deepened our support of teacher leaders in the20 - 21 school year. Teacher leaders (Facilitators) from each site received training in mentoring and coaching as well as content support in mathematics and 21st Century Learning. The Facilitators, in turn, provide on-site coaching to their respective staffs.
